

Education & Seminar/Certifications

NU DASMARIÑAS | Dasmariñas, Cavite

Bachelor of Science in Information Technology (Mobile and Web Applications) | August 2022 – Present

- Consistent Dean's Lister. Awards: IT Specialist - HTML and CSS; CodeChum Java Competitions Top 73.
- Emerging Trends in AI and Machine Learning | National University Dasmariñas | Oct 2025
- Cybersecurity Fundamentals in Enterprise Environments | PSITS Regional Convention | Sept 2025
- Enterprise ITSM and AI Integration Workshop | Service IT+ Internal Training | Jan 2026
- AI Agents for Everyone: Building No-Code Workflows | DataCamp Webinar | March 2026

Digital Startup & Cybersecurity Training Series | DICT Region IV-A | May 2024

- Gained technical proficiency in PNP/PSA digital signatures, startup lifecycle acceleration, and the eGOVPh unified digital framework.

PROFESSIONAL EXPERIENCE

Service IT+ | Salcedo, Legaspi Suites, Makati City, Metro Manila

IT Intern / AI & Automation Engineer | November 2025 - Present

- Secured **1st Place** at the ITSDI SOC Under Fire: Blue Team Cyber Defense Challenge (March 2026), demonstrating advanced incident response and cyber resilience capabilities on behalf of the company.
- Engineered an AI chat assistant for IT Service Management (N8N, ReAct architecture), automating query resolutions and dynamic API path discovery to accelerate ticket closures.
- Architected an automated variance dashboard (Asana/Ivanti integration) and enterprise webhook workflows, eliminating data discrepancies and optimizing IT tracking operations.
- Deployed secure local LLM environments (Proxmox, Ollama), executing physical network configurations and security protocol updates to fortify infrastructure.

VPMED - Medical Equipment Repair and Maintenance Services | Dasmariñas, Cavite

Full-stack Developer | December 2024 – August 2025

- Developed an end-to-end medical equipment service platform (React, Supabase), automating repair workflows, inventory tracking, and PDF invoice generation.
- Designed a dynamic analytics dashboard with Role-Based Access Control, providing real-time, actionable insights into revenue, work output, and operational efficiency.

Projects & Technical Skills

iSagip: Smart Disaster Response Platform | IEEE-Published Research Project

- Developed a full-stack disaster management system using Flutter (mobile), and Supabase (backend).
- Integrated real-time incident reporting, rescuer assignment, and live geolocation tracking for situational awareness.
- Presented the technical architecture and AI implementation at the 2025 IEEE ICAISD conference in Jakarta, Indonesia.
- Validated the system's effectiveness through rigorous testing, securing a 4.63/5.0 score in security and 4.62/5.0 in functionality.

HanapBuhay: AI-Powered Job Portal

Full-Stack Developer

- Engineered a full-stack Flutter job portal, integrating AI-powered resume screening and automated cover letter generation to streamline hiring processes.
- Integrated ZEGOCLOUD and Firebase Messaging to support in-app video interviews and real-time chat, elevating user engagement and platform retention.

TECHNICAL SKILLS

- **Frontend & Mobile Architecture:** React, Next.js, TypeScript, JavaScript, Tailwind CSS, HTML, CSS, Flutter (Dart), Swift, Kotlin.
- **Backend, Database & Cloud:** Node.js, Express, PostgreSQL, MongoDB, Prisma, Sequelize, Supabase, Firebase, Docker, Proxmox.
- **AI & Automation Engineering:** N8N, Microsoft Copilot Studio, Ollama, ReAct Architecture, AI Agent Development, Webhooks, API Integrations.
